Aurangabad, Maharashtra | P: +91 9763199319 | kavi3006@hotmail.com | www.linkedin.com/in/kavi-shah/

OBJECTIVE

Computer Science Engineering graduate from VIT with hands-on experience in building responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and React, with a strong foundation in frontend development and software engineering principles. Eager to contribute to innovative and scalable technology solutions in a dynamic development role.

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY

Bachelor of Technology

Computer Science Engineering

Degree Awaiting

CGPA: 7.25/10.0

Relevant Coursework: Software Engineering, Operating Systems, Algorithms, Computer Networks, Data Analysis, Operating Systems, Data Base Management System (DBMS), Artificial Intelligence

Vellore, Tamil Nadu

Sept'21 – June'25

AGRASEN VIDYA MANDIR

CBSE Board, Aggregate: 72.8%

Aurangabad, Maharashtra

April'18 – Mar'19

DEOGIRI COLLEGE

State Board (HSC), Aggregate: 87.3%

Aurangabad, Maharashtra

Mar'20 – Mar'21

WORK EXPERIENCE/INTERNSHIP

Blockchain Intern

SettleMint

New Delhi

Sept'23 – Nov'23

- Gained hands-on experience with SettleMint's low-code blockchain platform to build production-grade blockchain applications.
- Collaborated with the blockchain team to develop and deploy thoroughly tested ERC721 standard smart contract for an NFT crowdfunding project for a client in Dubai.
- Collaborated with senior and lead developers to understand and apply the Software Development Lifecycle (SDLC).
- Assisted in project execution, support, and documentation to ensure successful delivery.
- **Programming language:** Solidity
- **Tools and Frameworks:** Hardhat, OpenZeppelin, Metamask

PROJECTS

PORTFOLIO WEBSITE

A personal portfolio built to showcase projects, skills, and experience as a web developer.

- Built using React + Vite, featuring a responsive and modern user interface optimized for all devices.
- Highlights key projects, technical skills, and includes a contact section for easy outreach.
- Deployed on Vercel with GitHub integration for continuous deployment and version control.

WEALTHWISE: MONEY MANAGEMENT SYSTEM

Finance management system using AI and clustering algorithms for personalized expense tracking.

- Built a personal finance app using Streamlit with an interactive dashboard for tracking income, expenses, and trends.
- Implemented K-means clustering for user segmentation and personalized financial insights.
- Developed an NLP-based chatbot to provide tailored financial advice and spending recommendations.
- Processed transactional data to enable accurate expense tracking and budget management.

PERSONALIZED MUSIC RECOMMENDATION BASED ON FACIAL RECOGNITION (FaceTune)

A project creating a music recommendation system based on real-time facial emotion recognition.

- Developed a Python-based system that detects facial emotions in real-time using Convolutional Neural Networks (CNNs).
- Utilized deep learning models for accurate emotion classification.
- Integrated the system with the Spotify API for personalized music recommendations.

DECENTRALISED LOTTERY SYSTEM

- Developed smart contract for a decentralized lottery system on the Ethereum blockchain.
- Utilized Solidity for smart contract development and Hardhat for deployment and testing on local network as well as on Ethereum Sepolia test network.
- **Programming language:** Solidity
- **Tools and Frameworks:** Hardhat, OpenZeppelin, Metamask

SKILLS

Programming Languages: HTML, CSS, JavaScript, C/C++, Python, Java, SQL, Solidity

Libraries & Frameworks: React, Vite, Responsive Design, Hardhat, OpenZeppelin

Tools & Platforms: Git, GitHub, Vercel, Visual Studio Code

Cloud Platforms: Google Cloud, Oracle Cloud

Other Tools: Cisco Packet Tracer, RStudio, Metamask

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Attention to Detail, Adaptability

Languages: English, Hindi, Gujarati, Marathi

CERTIFICATION

- **Front End Development Libraries**
freeCodeCamp, Issued May 2025
- **Responsive Web Design**
freeCodeCamp, Issued May 2025
- **Google Cloud Computing Foundations Program**
Google Cloud, Issued 2023
- **Java Development on Oracle Cloud**
Oracle Cloud, Issued 2023
